Projects

To Do List

An app that allows users to create and remove to-do lists. Each to-do list is listed as the day of the week with the date. In addition, allows users to add and remove tasks and descriptions for each day.

Movies for Sale

An app in which stimulates a Mobile Commerce App. This is an app that allows users to search and buy movies. As well as, view details of movies, add and remove from the shopping cart, checkout selected movies and see an accumulated total.

Restaurant Roulette

An app made in collaboration of 4 people. Restaurant Roulette enables users to discover local businesses in cool and fun ways. The app has access to the Yelp API, which allows the user to view businesses and give opportunities to discover new places. The user is able to find places by entering what they would like to eat.

Success Planner

An app published in the Google Play Store. This is an app that allows users to add and keep track of their goals, affirmations and schedule on the daily bases. When opening the app users will be greeted with inspirational quotes taken from the internet. The app has a feature where users can customize their own vision board. Users are able to upload images and add new text unto the screen, change color and size of text and save the vision board to their phone.
